ABOUT ME

Hello, I'm Md. Al Amin, a full-stack developer with 1 year+ of experience. I have a strong passion for crafting seamless web experiences that users love. My toolkit comprises Laravel for robust back-end development, JavaScript for dynamic front-end interfaces with React, and modern tools like Inertia.js and Vite. With expertise in MySQL for optimizing databases, Git for version control, and CSS for elegant styling. From mastering AJAX for dynamic web interactions to ensuring smooth user experiences, I'm dedicated to delivering applications that shine.

WORK EXPERIENCE

Full-Stack Web Developer
Nano Information Technology (Nanosoft) [01/03/2023 – Current]

Address: CHA 75/C SM Bhaban, Pragati Sarani, 1212 Dhaka (Bangladesh)

- Leveraged my expertise in Laravel to craft web applications for seamless user experiences.
- Collaborated with diverse teams, including project managers and designers, to implement features that align with project goals. I used JavaScript, React, and AJAX to achieve this.
- Managed database design and performance using MySQL, optimizing queries and ensuring data integrity.
- Conducting thorough testing and debugging to identify and fix bugs and issues.
- Maintained an organized codebase with clear documentation, including API specifications and technical details.
- Utilized Git for version control, enabling efficient collaboration with fellow developers.
- Conducted comprehensive testing and debugging, leveraging my skills in Inertia.js and Vite for smooth application performance.
- Pursued continuous learning to stay updated with the latest trends and best practices in Laravel and web development.

Executive - Support Engineer
One Sky Communications Limited [01/09/2022 – 28/02/2023]

Address: 115/23 Motijheel Circular Road (6th Floor), 1222 Dhaka (Bangladesh)

- Provide technical support (ISP infrastructure, Router, switch) at the user end as per requirement.
- Graphical Design for Cable maintenance, Connection testing.
- Participate in on-call rotation schedule for nights and weekends
- Perform other duties and responsibilities as required and assigned.
- Prepare reports by analyzing and summarizing information.
- Coordinate with network operation team to ensure rollout plan and service delivery.
- Manage field operation team and report to line Manager.

PROJECTS

Special Branch (Bangladesh) Inventory Management System
[03/09/2023 – Current]

- Played a key role in the successful development and management of an inventory system designed to optimize stock product management, requisition creation, and product distribution.
- Designing and implementing role-based access control to enhance system security and functionality.
- Developing a real-time inventory tracking feature to monitor stock levels efficiently.
- Creating a variety of reports, including requisition details, current stock reports, and expired product reports, providing critical insights into inventory management.
- Designing role-wise dashboards, using AmChart to visualize and display key metrics such as the most requisitioned products list and the most stocked products list, enabling data-driven decision-making.
- Continuously updating and maintaining the system to meet evolving project requirements and industry standards, ensuring its adaptability and efficiency.

UNHCR IWMS (Inventory and Warehouse Management System)

[01/04/2023 – Current]

- Contributed significantly to the UNHCR's inventory and warehouse management project, a critical system for managing inventory and warehouses.
- Developed a range of reports, including warehouse-wise goods reports, distribution point-wise goods reports, beneficiary reports, current stock reports for warehouses and distribution points, and goods-wise and sector-wise stock reports.
- Played a pivotal role in optimizing data visualization and reporting within the system to provide actionable insights into inventory and distribution processes.
- Collaborated with the project team to ensure that the system met the unique requirements of UNHCR's inventory and warehouse management

BUP (Bangladesh University of Professionals) Educational Website

[10/03/2023 – 30/09/2023]

- Contributed to the development and design of the BUP educational website, actively involved in creating and maintaining various pages for both the frontend and backend.
- Designed and developed key pages for BUP clubs, gallery, news, events, and notices, enhancing the website's functionality and user experience.
- Played a key role in the implementation of a user-friendly content management system (CMS) to streamline content updates and website management.

BRAC SELP (Social Empowerment and Legal Protection)

[01/12/2023 – Current]

- Significantly contributed to the development of a robust Legal Aid platform, emphasizing court cases, Alternative Dispute Resolution (ADR), and legal assistance, with a specific focus on preventing child marriages
- Established "Swapnosarothi," a girl's agency, organizing brigades, imparting life skills, and generating impactful reports.
- Implemented a strong data system for survivor-wise direct service and legal protection reports, enhancing decision-making.

EDUCATION AND TRAINING

Bachelor of Science in Computer Science and Engineering
Daffodil Institute of IT (DIIT) [2017 – 2021]

City: Dhaka
Country: Bangladesh
Website: https://diit.edu.bd/
Field(s) of study: Information and Communication Technologies: *Software and applications development and analysis , Database and network design and administration*
Final grade: 3.38

Professional Web Design & Development
Creative IT Institute , Dhaka

City: Dhaka
Country: Bangladesh
Website: https://www.creativeitinstitute.com/

DIGITAL SKILLS

PHP Framework Laravel / Javascript / React / AJAX / MySQL / CSS / Bootstrap / SQL / JSON / Microsoft Office (Word , Excel and Power Point) / Version Control System (Git)
